

## Grooming Report

Current as of 07-Apr-2020, 12:04AM MDT

Vehicle access is temporarily suspended at access points to Alberta's provincial parks and recreation areas for recreation purposes until further notice. The restrictions are in place to help stop the spread of the COVID-19 virus.

We recognize this news is disappointing to park visitors and recreationalists. As the COVID-19 virus is serious, we encourage visitors to stay closer to home and go for a walk in their neighborhood, but always remember to practice physical distancing. If a car is required to access a park or recreation area, these areas will not be available so make other plans. Although, walking, hiking, biking, horseback riding and off-highway vehicle use are still permitted on designated trails. access points will be limited.
